THE STEITZ SECURA VARIO® - SYSTEM

For each individual wearer the absorption properties of the shoe adapt themselves through the weight-calculated elasticity of the shock absorber. This results in the wearer's gait being fatigue-free; less prone to injury and kinder to his back posture.

Weight-calculated shock absorption

The AGR-quality cachet (Aktion Gesunder Rücken = Campaign for Healthier Backs): Certified and recommended by Association Forum Healthy Back - Better Living and Federal Association of German Back Schools.
