## CUT RESISTANT SLEEVES

4.5.4.X

X1XXXX

Length: 14"/35cm

Ref: 5T35S

- **Lint free**
- **Superior abrasion resistance**
- **Contact heat up to 100°C**
- **With thumb slot**
- **Washable**
- **Multi-purpose uses**
- **Cut level 5 protection**

Typical Applications Include:

- Automotive & Transportation
- Metal Fabrication
- Glass
- Machinery & Equipment
- Building & Construction
- Logistics & Warehousing
- Welding & Plastics Industry

**Product Name:** Black Panther 5T35S  
**Our Reference:** 5T35S  
**Length:** 14"/35cm  
**Quantity per pack:** 12 pairs  
**Quantity per case:** 120 pairs

4.5.4.X

X1XXXX

- **Product Description**  
Yellow knitted cut resistant sleeves made up of a mixture of materials including glass fiber, spandex & synthetics. Highest level of cut resistance, comfort and dexterity, open thumb slot for added protection for the wrists.
- **Typical Applications**  
Glazing, Construction, Automotive & Metal Assembly.
- **Important Information**  
The levels of performance mentioned are only valid for the arm and wrist areas and does NOT fully protect the hand area because of the open finger tips and a protective over glove should be worn to protect these open areas. Users should be warned that sleeves should not be worn when there is a risk of entanglement by moving parts of machines.

These sleeves are cut resistant but are **NOT** cut proof. These sleeves are not for use with liquids.

Pictogram and Performance in accordance with EN388		
<b>Abrasion:</b>	Level 4	This sleeve has been subject to a CE type examination performed by: C.T.C. (0075) 4 rue Hermann Frenkel 6 9367 Lyon Cedex 07, France
<b>Cut:</b>	Level 5	
<b>Tear:</b>	Level 4	
<b>Puncture:</b>	X	
The higher the level the more the protection (5 highest)		

Pictogram and Performance in accordance with EN407		
<b>Burning Behaviour:</b>	X	This sleeve doesn't give protection for temperatures more than 100°C
<b>Contact Heat:</b>	1	
<b>Convective Heat:</b>	X	
<b>Radiant Heat:</b>	X	
<b>Small Splashes of Molten Metal:</b>	X	
<b>Large Splashes of Molten Metal:</b>	X	

### FURTHER INFORMATION

- **Cleaning/Maintenance**  
Both new and used sleeves should be thoroughly inspected before being worn to ensure no damage is present. Sleeves should not be left in a contaminated condition if reuse is intended in which case sleeves should be cleaned if possible, laundering of these sleeves is not recommended. Extra care should be taken when removing sleeves to avoid any contaminant contacting bare skin.
- **Storage**  
Store in cool dry area away from direct light or heat source in the original packaging where possible.
- **General**  
None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer.
- **Please Note**  
The results of the physical tests should help in sleeve selection, however it must be understood that actual conditions of use cannot be simulated and it is the responsibility of the end-user and not the manufacturer to determine sleeve suitability for the intended use.
